ADHERE™ Bracket Adhesive

SELF/LIGHT CURE BRACKET ADHESIVE

PROVEN SUPERIOR BONDING CHARACTERISTICS!

Ortho Specialties Adhere™ Bracket Adhesive is ideal for metal, ceramic, fiberglass and plastic/composite appliances.

- No mixing to reduce chair time
- High tack paste to minimize bracket drift, allowing for quicker, easier and more accurate bracket placement
- Available in syringe or individually preloaded syringe tips

Adhere™ LC Kit LIGHT CURE

Contents:

- 1 - 5gm Light-Cure Adhesive Syringe
- 1 - 9gm Enamel Conditioner (etch)
- 1 - 7gm Primer (sealant)

Adhere™ LC Kit 600-370

Adhere™ LC Kit Individual Components

The following components are available for use with the Adhere™ LC Kit:

| | |
|--------------------------------------|---------|
| 5gm Adhere™ LC Adhesive Syringe | 600-369 |
| 30 Preloaded Adhere™ LC Syringe Tips | 600-371 |
| 7gm Primer (sealant) | 600-372 |
| 9gm Enamel Conditioner (etch) | 600-373 |

Adhere™ SC Kit CHEMICAL CURE

Contents:

- 1 - 5gm Self-Cure Adhesive Syringe
- 1 - 9gm Enamel Conditioner (etch)
- 1 - 7gm Activator

Adhere™ SC Kit 600-385

Adhere™ SC Kit Individual Components

The following components are available for use with the Adhere™ SC Kit:

| | |
|--------------------------------------|---------|
| 5gm Adhere™ SC Adhesive Syringe | 600-388 |
| 30 Preloaded Adhere™ SC Syringe Tips | 600-386 |
| 7gm Activator | 600-387 |
| 9gm Enamel Conditioner (etch) | 600-373 |

INVISION™ Bracket Adhesive LIGHT CURE

COLOR CHANGING LIGHT CURE BRACKET ADHESIVE

InVision™ Color Changing Adhesive Kit/Components

Contents:

- 2 - 10gm Light-Cure Adhesive Syringes
- 1 - 8gm Light Cure Sealant
- 1 - 12gm Syringe Etch

| | |
|-----------------------------------|---------|
| Invision™ Adhesive Kit | 600-645 |

| 12gm Syringe Etch | 600-647 |
| 10gm Light-Cure Adhesive Syringes | 600-648 |

LOCK TIGHT™ Band Cement

AUTOMIX, DUAL CURE, GLASS IONOMER

Made in the U.S.A.

SPECIALLY DESIGNED AUTOMIX DISPENSING FEATURE!

LockTight™ dual cure glass ionomer band cement features a specially designed dispensing system that automatically mixes the base and catalyst as it is expressed through the syringe tip.

- Dual Cure feature allows for control of length of cure time.
- Self cure mode - chemical cure will be achieved in 5 to 8 minutes.
- Partial cure can be achieved by exposing cement to a dental curing light for 20 seconds.
- Complete cure can be achieved by exposing cement to a dental curing light for 50 seconds.

Lock Tight™ Band Cement Kit

Contents:

- 1 - 5gm Catalyst/Base in Automix Dispensing Syringe
- 5 - Automix Syringe Tips

| | |
|---------------------------------------|---------|
| Blue - Lock Tight™ Band Cement Kit | 600-400 |
| Neutral - Lock Tight™ Band Cement Kit | 600-401 |
| 10pk Automix Replacement Tips | 600-402 |

GLASS BOND™ Band Cement

GLASS IONOMER, FLUORIDE RELEASING

Made in the U.S.A.

- Fluoride release to help prevent decalcification.
- Chemical bond far superior to zinc phosphate cements.
- Superior peripheral seal protects against washout and micro leakage above and under the band.

Glass Bond™ Glass Ionomer Band Cement Kit / Fluoride

Contents:

- 1 - 25gm Powder
- 1 - 15ml Liquid
- 1 - Measuring Scoop

| | |
|--------------------------------------|---------|
| Glass Bond™ Glass Ionomer Cement Kit | 600-395 |
|--------------------------------------|---------|

Glass Bond™ Kit Individual Components

The following components are available for use with the Glass Bond™ Band Cement Kit:

| | |
|--------------------------|---------|
| 25gm Glass Bond™ Powder | 600-396 |
| 15ml Glass Bond™ Liquid | 600-397 |
| 60ml Glass Bond™ Liquid | 600-398 |
| 100gm Glass Bond™ Powder | 600-399 |

Bulk Etching Gel Kit

A fast convenient way to refill your etching syringes. Simply screw refillable syringe onto the tip of the bulk syringe and push. Etching material is neatly transferred into the refillable syringe. 37% Silica-Free etching gel.

Contents:

- 1 - 50ml Etch Gel Syringe
- 3 - Refillable syringes
- 50 - Disposable Tips

| | |
|------------------------|---------|
| Bulk Etching Gel Kit | 600-375 |
| Replacement Tips 50/pk | 600-380 |

Cheek / Lip Retractors

Cheek retractors are flexible, comfortable retractors provide broad visibility and access for bonding. Autoclavable.

Lip Retractors are constructed of transparent plastic and are ideal for use when taking photographs or difficult bonding procedures.

| | |
|---------------------------|---------|
| 2 Small Cheek Retractors | 600-301 |
| 2 Medium Cheek Retractors | 600-300 |
| Small Lip Retractors | 600-311 |
| Medium Lip Retractors | 600-310 |

Etching Gel Syringe Kit

Contents:

- 1 - 12ml Etch Gel Syringe
- 10 - Disposable Tips

| | |
|-------------------------|---------|
| Etching Gel Syringe Kit | 600-378 |
| Replacement Tips 50/pk | 600-380 |

E-Z Etch™ Preloaded Etching Gel Tips

Designed for single patient use, these preloaded etch tips eliminate the possibility of cross contamination. 30 per pk.

| | |
